

SAFETY DATA SHEET

PIG Blocker Products

According to Regulation (EC) No 1907/2006, Annex II, as amended. Commission Regulation (EU) No 2015/830 of 28 May 2015.

SECTION 1: Identification of	the substance/mixture and of the company/undertaking
1.1. Product identifier	
Product name	PIG Blocker Products
1.2. Relevant identified uses	of the substance or mixture and uses advised against
Identified uses	The confinement and control of spilled liquids.
Uses advised against	No specific uses advised against are identified.
1.3. Details of the supplier of	the safety data sheet
Supplier	New Pig Ltd. Hogs Hill, Watt Place Hamilton International Technology Park Blantyre, Glasgow, G72 0AH UK E: pigpen@newpig.com Web: www.newpig.co.uk T: +44 (0) 1698 727 400
1.4. Emergency telephone nu	mber
Emergency telephone	+44 (0) 1698 727 400 Monday - Friday 08:00 - 17:00
SECTION 2: Hazards identified	cation
2.1. Classification of the subs	tance or mixture
Classification (EC 1272/2008	2
Physical hazards	Not Classified
Health hazards	Not Classified
Environmental hazards	Not Classified
2.2. Label elements Hazard statements	NC Not Classified
2.3. Other hazards	
PBT/ vPvB assessment: Not relevant.	
SECTION 3: Composition/information on ingredients	
3.2. Mixtures Composition comments	Product consists of: Polyurethane Elastomer. 60-100% May contain: Polypropylene Top Cover; "mixture" Rubber Top Cover; "mixture" Vinyl Top Cover.
SECTION 4: First aid measures	

4.1. Description of first aid measures

General information The comments refer to the product in its unused state. If product is us refer to the absorbed liquid's Safety Data Sheet. Inhalation Not relevant. Unlikely route of exposure during normal use. Ingestion Not relevant. Unlikely route of exposure during normal use. Skin contact Not relevant. Unlikely route of exposure during normal use. Skin contact Not relevant. Unlikely route of exposure during normal use. Eye contact Not relevant. Unlikely route of exposure during normal use. 4.2. Most important symptoms and effects, both acute and delayed Inhalation Inhalation No specific symptoms known. Ingestion No specific symptoms known. Skin contact Prolonged contact may cause dryness of the skin. Contact with hot pr thermal burns. Eye contact No specific symptoms known. 4.3. Indication of any immediate medical attention and special treatment needed Notes for the doctor If product is used: Where necessary refer to the absorbed liquid's Safety Data Settinguishing media Suitable extinguishing media If product is unused: Use fire-extinguishing media suitable for the sum is used: Where necessary refer to the absorbed liquid's Safety Data Setty Data Safety Data Setty Data Setty Data Setty Data Setty Data Safety Data Setty Data Setty Data Setty Datypropyle	
Ingestion Not relevant. Unlikely route of exposure during normal use. Skin contact Not relevant at normal room temperatures. If heated: Burns (in contact Flush with water immediately, While flushing, remove clothes which d area. Get medical attention immediately. Continue to rinse. Eye contact Not relevant. Unlikely route of exposure during normal use. 4.2. Most important symptoms and effects, both acute and delayed Inhalation Inhalation No specific symptoms known. Ingestion No specific symptoms known. Skin contact Prolonged contact may cause dryness of the skin. Contact with hot pr thermal burns. Eye contact No specific symptoms known. 4.3. Indication of any immediate medical attention and special treatment needed Notes for the doctor If product is used: Where necessary refer to the absorbed liquid's Safe Specific treatments No special treatment required. SECTION 5: Firefighting measures 5.1. Extinguishing media If product is unused: Use fire-extinguishing media suitable for the surris used: Where necessary refer to the absorbed liquid's Safety Data S 5.2. Special hazards arising from the substance or mixture Specific hazards Specific hazards Where necessary refer to the absorbed liquid's Safety Data Sheet. With polypropylene will become very sticky and will burn. Hazardous combustion products Thermal decom	ct is used: Where necessary
Skin contact Not relevant at normal room temperatures. If heated: Burns (in contact Flush with water immediately. While flushing, remove clothes which d area. Get medical attention immediately. Continue to rinse. Eye contact Not relevant. Unlikely route of exposure during normal use. 4.2. Most important symptoms and effects, both acute and delayed Inhalation Inhalation No specific symptoms known. Ingestion No specific symptoms known. Skin contact Prolonged contact may cause dryness of the skin. Contact with hot pr thermal burns. Eye contact No specific symptoms known. 4.3. Indication of any immediate medical attention and special treatment needed Notes for the doctor If product is used: Where necessary refer to the absorbed liquid's Saft Specific treatments No special treatment required. SECTION 5: Firefighting media If product is unused: Use fire-extinguishing media suitable for the surn is used: Where necessary refer to the absorbed liquid's Safety Data S Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire. Specific hazards Where necessary refer to the absorbed liquid's Safety Data S Specific hazards Where necessary refer to the absorbed liquid's Safety Data S Specific hazards Where necessary refer to the absorbed liquid's Safety Data S heet. Wipolypropylene	
Flush with water immediately. While flushing, remove clothes which d area. Get medical attention immediately. Continue to rinse. Eye contact Not relevant. Unlikely route of exposure during normal use. 4.2. Most important symptoms and effects, both acute and delayed Inhalation No specific symptoms known. Ingestion No specific symptoms known. Skin contact Prolonged contact may cause dryness of the skin. Contact with hot pr thermal burns. Eye contact No specific symptoms known. 4.3. Indication of any immediate medical attention and special treatment needed Notes for the doctor Notes for the doctor If product is used: Where necessary refer to the absorbed liquid's Safe Specific treatments No special treatment required. SECTION 5: Firefighting media Suitable extinguishing media If product is unused: Use fire-extinguishing media suitable for the surris is used: Where necessary refer to the absorbed liquid's Safety Data S Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire. for firefighters clothing.	ot touch or walk into spilled
	BA) and appropriate protective
SECTION 6: Accidental release measures	
6.1. Personal precautions, protective equipment and emergency procedures	

Personal precautions For personal protection, see Section 8. No action shall be taken without appropriate training or involving any personal risk.

6.2. Environmental precautions

Environmental precautions Do not discharge into drains or watercourses or onto the ground.

6.3. Methods and material for containment and cleaning up

Methods for cleaning up	If product is unused: Collect spillage. Reuse or recycle products wherever possible. If product
	is used: Wear protective clothing as described in Section 8 of this safety data sheet. Where
	necessary refer to the absorbed liquid's Safety Data Sheet. Collect and place in suitable
	waste disposal containers and seal securely. Containers with collected spillage must be
	properly labelled with correct contents and hazard symbol.

6.4. Reference to other sections

Reference to other sections	For personal protection, see Section 8. See Section 11 for additional information on health
	hazards. For waste disposal, see Section 13.

SECTION 7: Handling and s	storage
7.1. Precautions for safe ha	ndling
Usage precautions	Wear protective clothing as described in Section 8 of this safety data sheet. Read and follow manufacturer's recommendations. Where necessary refer to the absorbed liquid's Safety Data Sheet. Harmful dust may be released during cutting or grinding process. If ventilation is inadequate, suitable respiratory protection must be worn.
Advice on general occupational hygiene	Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product.
7.2. Conditions for safe stor	age, including any incompatibilities
Storage precautions	Store in a dry place. Keep away from heat, sparks and open flame. Store separated. Product may become connected to another.
7.3. Specific end use(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.
SECTION 8: Exposure cont	rols/Personal protection
8.1. Control parameters	
Ingredient comments	No exposure limits known for ingredient(s).
8.2. Exposure controls	
Appropriate engineering controls	Thermal decomposition or combustion products may include the following substances: Harmful gases or vapours. Provide adequate ventilation.
Eye/face protection	No specific eye protection required during normal use. If product is used: Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Where necessary refer to the absorbed liquid's Safety Data Sheet.
Hand protection	Hand protection not required. If product is used: It is recommended that chemical-resistant, impervious gloves are worn. Where necessary refer to the absorbed liquid's Safety Data Sheet.
Hygiene measures	Wash hands thoroughly after handling. When using do not eat, drink or smoke.
Respiratory protection	No specific requirements are anticipated under normal conditions of use. If product is used: Where necessary refer to the absorbed liquid's Safety Data Sheet.
Environmental exposure controls	Do not allow any environmental contamination.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance

Colour	Black. / Yellow. Green. Blue. / Black. Yellow.
Odour	Odourless.
Odour threshold	Not available.
рН	Not available.
Melting point	193-232°C (may degrade above 149°C)
Initial boiling point and range	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Upper/lower flammability or explosive limits	Not available.
Vapour pressure	Not available.
Vapour density	Not available.
Relative density	1.05-1.25
Solubility(ies)	Insoluble in water.
Partition coefficient	Not available.
Auto-ignition temperature	Not available.
Decomposition Temperature	Not available.
Viscosity	Not applicable.
Explosive properties	Not considered to be explosive.
Oxidising properties	Does not meet the criteria for classification as oxidising.
9.2. Other information	
Other information	No information required.
SECTION 10: Stability and rea	activity
10.1. Reactivity	
Reactivity	See the other subsections of this section for further details.
10.2. Chemical stability	
Stability	Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions.
10.3. Possibility of hazardous	reactions
Possibility of hazardous reactions	Will not polymerise.
10.4. Conditions to avoid	
Conditions to avoid	Avoid heat, flames and other sources of ignition.
10.5. Incompatible materials	
Materials to avoid	Acids. Alkalis.
10.6. Hazardous decomposition products	

Hazardous decomposition products	Heating may generate the following products: Toxic gases or vapours. Carbon dioxide (CO2). Carbon monoxide (CO). Nitrous gases (NOx). Hydrogen cyanide (HCN).
SECTION 11: Toxicological in	formation
11.1. Information on toxicologi	cal effects
Toxicological effects	This product is not considered as hazardous to health due to its physical form. If product is used: Where necessary refer to the absorbed liquid's Safety Data Sheet.
<u>Acute toxicity - oral</u> Notes (oral LD₅₀)	Based on available data the classification criteria are not met.
<u>Acute toxicity - dermal</u> Notes (dermal LD₅₀)	Based on available data the classification criteria are not met.
Acute toxicity - inhalation Notes (inhalation LC_{50})	Based on available data the classification criteria are not met.
Skin corrosion/irritation Animal data	Based on available data the classification criteria are not met.
Serious eye damage/irritation Serious eye damage/irritation	Based on available data the classification criteria are not met.
Respiratory sensitisation Respiratory sensitisation	Based on available data the classification criteria are not met.
Skin sensitisation Skin sensitisation	Based on available data the classification criteria are not met.
Germ cell mutagenicity Genotoxicity - in vitro	Based on available data the classification criteria are not met.
Carcinogenicity Carcinogenicity	Based on available data the classification criteria are not met.
Reproductive toxicity Reproductive toxicity - fertility	Based on available data the classification criteria are not met.
Reproductive toxicity - development	Based on available data the classification criteria are not met.
Specific target organ toxicity -	single exposure
STOT - single exposure	Based on available data the classification criteria are not met.
Specific target organ toxicity -	
STOT - repeated exposure	Based on available data the classification criteria are not met.
Aspiration hazard Aspiration hazard	Based on available data the classification criteria are not met.
General information	The product is not believed to present a hazard due to its physical nature.
Inhalation	No specific symptoms known.
Ingestion	No specific symptoms known.
Skin contact	Prolonged contact may cause dryness of the skin. Prolonged contact may cause burns.

Eye contact	No specific symptoms known.
SECTION 12: Ecological inform	mation
Ecotoxicity	The comments refer to the product in its unused state. Not regarded as dangerous for the environment. If product is used: Where necessary refer to the absorbed liquid's Safety Data Sheet.
12.1. Toxicity	
Toxicity	Aquatic toxicity is unlikely to occur.
12.2. Persistence and degrada	ability
Persistence and degradability	Not relevant.
12.3. Bioaccumulative potentia	
Bioaccumulative potential	Not relevant.
Partition coefficient	Not available.
12.4. Mobility in soil	
Mobility	Not considered mobile.
12.5. Results of PBT and vPvI	3 assessment
Results of PBT and vPvB assessment	Not relevant.
12.6. Other adverse effects	
Other adverse effects	Do not discharge into drains or watercourses or onto the ground. Risk of: Blockage
SECTION 13: Disposal consid	lerations
13.1. Waste treatment method	
Disposal methods	Dispose of waste product or used containers in accordance with local regulations Where necessary refer to the absorbed liquid's Safety Data Sheet.
SECTION 14: Transport inform	nation
General	The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).
14.1. UN number	
Not applicable.	
14.2. UN proper shipping nam	e
Not applicable.	
14.3. Transport hazard class(e	es)
No transport warning sign requ	uired.
14.4. Packing group	
Not applicable.	
14.5. Environmental hazards	
Environmentally hazardous su No.	bstance/marine pollutant

14.6. Special precautions for user

Not applicable.

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture	
National regulations	EH40/2005 Workplace exposure limits.
EU legislation	Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended). Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures (as amended).

15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

SECTION 16: Other information

Abbreviations and acronyms used in the safety data sheet	 ATE: Acute Toxicity Estimate. ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road. ADN: European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways. IATA: International Air Transport Association. IMDG: International Maritime Dangerous Goods. LC₅₀: Lethal Concentration to 50 % of a test population. LD₅₀: Lethal Dose to 50% of a test population (Median Lethal Dose). REACH: Registration, Evaluation, Authorisation and Restriction of Chemicals Regulation (EC) No 1907/2006. PBT: Persistent, Bioaccumulative and Toxic substance. vPvB: Very Persistent and Very Bioaccumulative. MARPOL 73/78: International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978.
General information	This SDS is not mandated under REACH Regulation (EC) No 1907/2006 and is provided for information only.
Classification procedures according to Regulation (EC) 1272/2008	Not classified.
Revision date	22/02/2019
Revision	2
Supersedes date	01/04/2014
SDS number	3887
SDS status	EN GB SDS S119.pdf

This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, no warranty, guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability of such information for his own particular use.
